**COMMUNICATION REGARDING CLAIM LANGUAGE**

This Communication is being filed concurrently with the payment of the issue fee.

Applicant wishes to make certain that the language of claim 23 is accurate. In the Amendment filed on July 5, 2005, Applicant amended claim 23 to read "The electronic device as claimed in claim 17, wherein the stepper motor is bi-directional and the first predetermined sweep angle is at least essentially equal to the second predetermined sweep angle." Originally filed as "The electronic device as claimed in claim 17, wherein the stepper motor is bi-directional.", claim 23 was thus amended to include the language "and the first predetermined sweep angle is at least essentially equal to the second predetermined sweep angle."

However, inadvertently, Applicant failed to underline the added language in the aforementioned amendment and now wishes to make clear the amendment made thereto. Thus claim 23 as amended and as set forth above should be the language of the claim ultimately appearing in the patent.

Respectfully submitted,
